

## **GUIDELINES FOR SPONSORS AND EXHIBITORS**

**Dear sponsors and exhibitors,**

The Croatian Geotechnical Society (CGS), in partnership with the University of Split – Faculty of engineering, Architecture and Geodesy, and under sponsorship of the International Society for Rock Mechanics and Rock Engineering (ISRM) is organizing its 8th conference, which is dedicated to geotechnical challenges in karst.

The topic of this conference has come from a whole range of new life requirements, from which we want to highlight the following. By spreading the settlements at the bottom of the high cliffs, there is a need for a high-quality protection against the rockfalls. Because of the need to build garages in urban areas, and to save valuable resources on the surface for other purposes, the coastal towns descend underground into the area of the karst. The construction of the foundations of large bridges and viaducts in the coastal zone creates a challenge in the transfer of concentrated loads into karst characterized by a number of weaknesses (karst sinkholes, caverns,...). The need for the construction of high speed roads in the coastal zone of the Republic of Croatia implicates excavations of long tunnels, which again is threat in the karst area

**We invite everyone interested to take advantage of the opportunity to promote their business, products and ideas in terms of the benefits offered for each sponsor category. Your financial and professional assistance in the form of a sponsor greatly contributes to the quality of our conference, which we are grateful for!**

The conference will take place at Hotel PLAŽA \*\*\*\* in Omiš. Invited lectures and article presentations will be held at the congress hall of the hotel. The program will provide enough time for breaks and discussion. The area where coffee and juices will be offered during the break, as well as the space that takes you to the hall, will be equipped for exhibitors at the conference.

To successfully accomplish all sponsor conditions and benefits, we are sending you the following guidelines:

- Please make the payment for the selected category without VAT to the CGS account (payments can be made online or through a proforma – Davor Milaković, [davor.milakovic@elektroprojekt.hr](mailto:davor.milakovic@elektroprojekt.hr); see next page for payment details)
- It is necessary to deliver basic company information (name, headquarters, contacts...)
- It is necessary to deliver the company **LOGO** in JPG or TIF format (for conference material publication)
- It is necessary to deliver the company **www** Internet address (for the 'link' on the CGS web site)
- It is necessary to deliver the advertisement in JPG or TIF format (for conference proceedings publication)

**NOTE: Sponsors who are entitled to the right to advertise in the conference proceeding, are obliged to make a payment and submit their advertisement no later than 01<sup>st</sup> March 2019 to realize the said convenience.**

For any additional questions, please contact the conference secretariat.
